To whom it may concern:

Dr. Marvin Jeter
Employment Recommendation

It is with great honor that I submit this recommendation memorandum in support of Dr. Marvin Jeter as Superintendent.

I had the privilege of knowing Dr. Jeter when he served as Assistant Superintendent for Learning Services in the Pulaski County Special School District. As the Executive Director for PACT and PASS, the teacher and support staff employee unions in the district, I found Dr. Jeter to be a problem solver and an innovative leader in providing quality education to our students. As result of his restructuring of our Learning Services Division, our district has been able to move forward in the delivery of programs geared to improving our overall student test scores. His expertise in curriculum and professional development enabled our district to move forward. In addition, his personable approach contributed to very positive labor relations in our district. Dr. Jeter has a real talent for making all who work with him feel as if they are part of the team. His commitment, energy and enthusiasm for public schools and student achievement are admirable.

I believe that Dr. Jeter will serve as a tremendous Superintendent in your school district.

Sincerely,

Sandra S. Roy
PACT/PASS Executive Director
